

# Arbors at Ridges ~ June 2017

Last month, along with students from MNCAPS (Minnesota Center for Advanced Professional Studies – Medicine & Healthcare), we had the honor of celebrating the legacies of several Arbors residents! Over the course of three months, the MNCAPS students interviewed residents about their life stories. On May 25th, the students shared the stories they heard and how their visits with Arbors residents have impacted their lives as a younger generation. The residents were provided with a copy of the legacy project reports to share with their family members and friends. Friendships were created, and priceless memories were shared between generations!
